

Gateway Pro

A compact gateway with a built-in touchscreen for fast setup, live visibility, and reliable data forwarding.

What is Aranet Gateway Pro?

Aranet Gateway Pro is the central hub for your Aranet wireless sensors. It collects sensor measurements and forwards them to Aranet Cloud or to third-party systems through integrations—so your monitoring data is accessible and actionable.

Why Gateway Pro

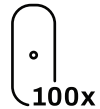

Fast onboarding and intuitive setup on the device

Touchscreen interface for quick on-site configuration and live readings

Remote visibility and management through Aranet Cloud

Connect up to 100 sensors (no extra sensor licensing)

How it is used

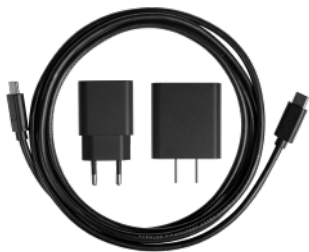

Aranet Gateway Pro is designed to get you up and running in minutes. Power it on, connect it to the internet, and follow the on-screen instructions. Sensor pairing is quick and straightforward—add, name, and organize sensors in just a few taps.

It's a strong fit for retail chains, fuel stations, pharmacies, flower shops, and other locations where fast installation and centralized Cloud management matter.

Power & accessories

Gateway Pro can be powered in three ways:

USB-C power adapter
Use a standard wall outlet.
Not included—available separately.

PoE injector (802.3af)
Power and data over Ethernet.
Not included—available separately.

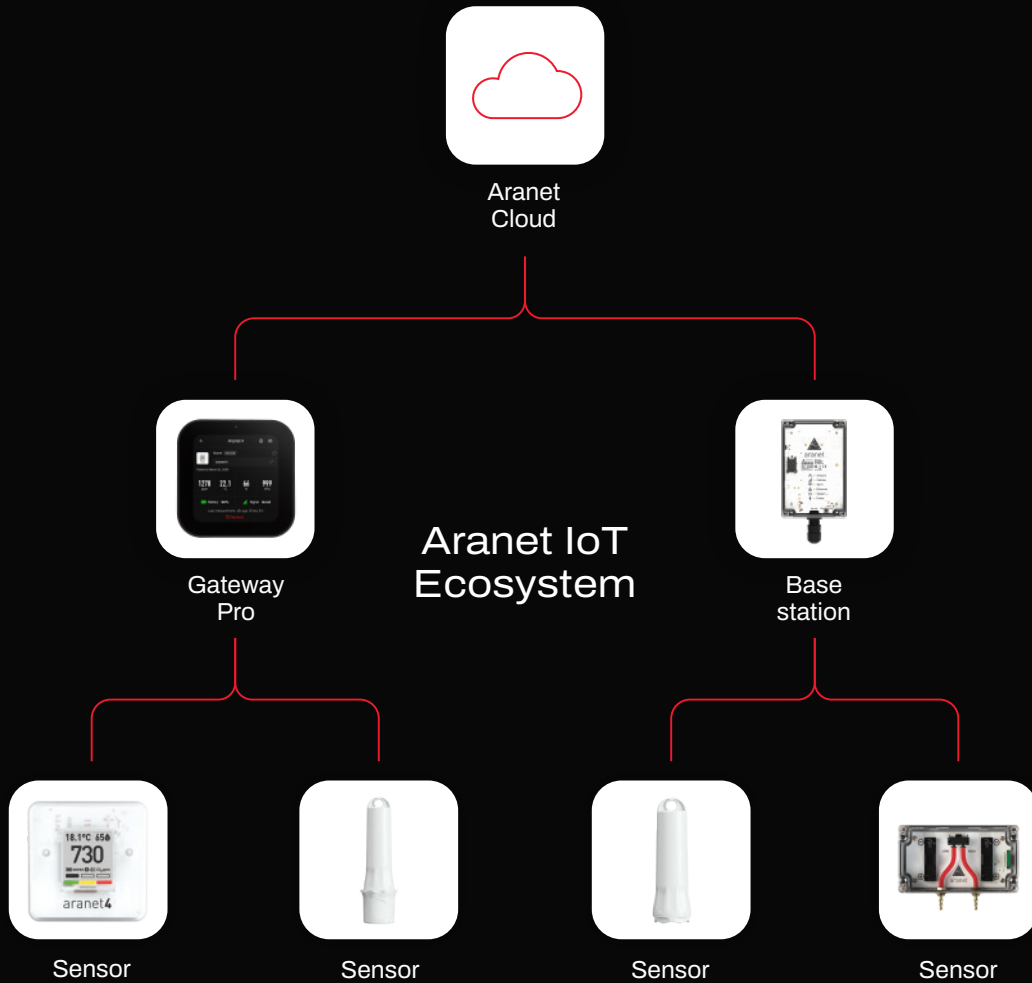

PoE network switch (802.3af)
Power and data over Ethernet using your existing network equipment (not included).
